

## SUBURBAN TO RENO

## Railroad Men and Their Families Will Nearly All Reside in Larger Reno

## Electric Company and Business Men of This City Will Offer Strong Inducements

The matter of most vital interest to the people of Reno at present is the new railroad town and what will come of it. There are a few people, principally real estate men, who predict for Harriman a population of several thousand people with large stores, hotels, places of amusement and, in fact, a cosmos of its own.

Ninety-nine people out of a hundred talked with by a Journal representative yesterday have just the opposite theory and they substantiate it with the evidence of other Nevada towns and their suburbs.

Ruby Hill was the scene of great mineral discoveries. An attempt was made to build up a city there, but the miners sought out Eureka as a place to spend their money.

The relationship between Gold Hill and Virginia City is the same and scores of other evidences could be given, where the suburb was swallowed up by the parent town, even if the latter was miles away.

In the opinion of The Journal, which is the opinion of nearly everybody interviewed yesterday, Harriman will never be anything but a hamlet until the time arrives when the growth of Reno makes of it a portion of the parent city.

Near the asylum, where the post-office will be located and where the new town will undoubtedly stand, is only a mile and a half from the city limits of Reno. This is all too short a distance to separate two towns of any consequence.

The building of an electric street car line, which is now an assured fact, will draw the two places so close together as to make them indivisible. A very cheap fare is assured and commutation tickets will be sold at a price

that will make it cheaper to ride than to stay at home.

One of the companies that is bidding for a franchise has volunteered to sell tickets in quantities at a rate so much below the regular price that the business men of Reno will purchase them in blocks and give them as bonuses to purchasers. Thus the Harriman housewife will come up to Reno of an afternoon, purchase several dollars worth of groceries and dry goods and make the trip free in addition to saving money on her purchases by purchasing in a large town where competition is keen.

The workmen in the shops can for a monthly commutation travel to and from the shops and spend their evenings where there are fraternal societies, places of amusement and other attractions for the toiler after working hours.

The splendid schools and churches of Reno will exert a potent influence on the railroad people, especially the women and children. Harriman cannot hope to boast of graded schools for many years and in the meantime the children of people who live in the new town will be sent to Reno for their education. The taxpayers of the Reno school district are as generous as any people, but when they find that they are paying for the education of children from rival towns they will register a kick and compel the Harriman children to acquire a legal residence in this city if they desire to reap the educational advantages paid by local property holders.

All these facts will deter the incoming population from locating a mile or two from town when they can gain a residence within the city limits or near by along the street car lines.

The substantial and rapid growth of Reno evidences that this city will be able to take care of all the railroad people and the business men will throw out extra inducements to gain this desirable population.

One of the principal reasons that the Southern Pacific company was influenced by in the selection of its new site for division point and location of cershops was the universal request made by the employees that this be done. The railroad men want to come to Reno, not to an alfalfa metropolis down on the flats, where the mosquito buzzeth and the coyote walleth from desolate eve to lonely morn.

## ELKS WILL LAY THE CORNER STONE

## A Warm Time Expected in Reno Next Saturday Evening, When With Appropriate Ceremony a Corner Stone Will Be Laid

There will be "A Hot Time in Old Town" next Saturday night for it will be the occasion of the laying of the corner stone of the Reno Elks' Home.

The ceremony would have taken place in the afternoon had it not been that the Masons of Carson are to have charge of the laying of the corner stone of the Orphans' Home in that city on that day. In order that persons participating in the exercises at Carson can attend those to be held in this city. The hour for the laying of the corner stone has been fixed at 7:30.

It is expected there will be a large crowd of people come here from the south to be present on this occasion and a special train will be run for their accommodation.

Past Exalted Ruler H. J. Gosse will be master of ceremonies and have charge of the placing of the corner stone. Frank Langan of Virginia City will deliver the address and John O'Sullivan will give his attention to the musical part of the program.

At the conclusion, at the new home, which is situated on First street, between Virginia and Sierra streets, the members of the order will repair to the hall and a regular session of the lodge held, after which—well—well. (This don't apply to water, but a jolly banquet.)

## The Visitors Banqueted

Last evening the visiting bishops and clergy of the Sacramento diocese were banqueted at the Riverside hotel. Covers were laid for fifty. The hosts of the occasion were members of Trinity parish. Mine Host Gosse went to particular pains to provide the most dainty viands in abundance for the banqueters. The affairs was one of the most pleasant that has characterized the convocation.

## Criminal Counsel

Superintendent Joseph O'Dette of the Washoe county hospital will have his hearing in Quincy Tuesday next on the charge of deporting a pauper from Nevada into California. He will leave Sunday for the scene of war, accompanied by District Attorney Pike and Senator Summerfield.

## Visiting in Reno

Mr. and Mrs. R. F. Taylor of Napa City, Cal., are guests at the McCormack House. Mr. Taylor is a prominent member of the Napa county bar.

For an up-to-date buggy, rubber tired surrey, trap or any style of a family rig, call on Sanders, Oakes Co.

## CITY COUNCIL IN INTERESTING SESSION

## Senator Westerfield Is Cited to Prove Remarks Alleged to Be Made. Ordinance Calling for Modern Sidewalks

The city council had another busy session last evening. The matter of granting a street car franchise was passed up for further consideration.

Councilman Drappo moved that as W. J. Westerfield had made certain statements about the city council, he be cited to appear and prove the same to be true. The motion was seconded and carried.

It was moved, seconded and carried that the city attorney be instructed to communicate with any city he desires and obtain all the information he can relative to the letting of street car line franchises.

The council directed the city attorney to prepare an ordinance relating to the laying of modern sidewalks on Second street between West and Center, Sierra between Second and Fourth, Virginia street between First and Fifth, Center between Second and Commercial, Commercial between Lake and West and Plaza between Center and Sierra.

## Trouble About the Bridge

A movement has been on foot for some time to have another bridge built across the Truckee in this city. The officers of the "Truckee schooner fleet" are naturally uneasy. It is a well known fact that the river has been meandered and pronounced a navigable stream.

Admiral Evans, Commodore Cummings and Purser Caffrey declare that they will insist upon the proposed bridge containing a draw. Whether it draws steam or lager is immaterial to them.

## The Old Reliable

Harry J. Lynd, the popular Carson & Colorado mail clerk, is spending a few days in this city trotting around with his side kick, John Madison Gray. The latter says that Lynd is "the veteran clerk in the Nevada service," even if Lynd will not admit to over 29 years of existence on this mundane sphere.

## Fraternity Men Banquet

Eighteen university students, members of the Sigma Alpha frat, sat down to a banquet last evening in the Overland cafe. The guest of honor was James Olding, a member of the society who is a cadet at Annapolis and who is home on a brief vacation.

den of Folsom prison. They say that there is considerable "con talk" about the sensational articles that have been appearing the past couple of days in the San Francisco papers regarding the convicts, but they say that the story about the skeleton keys that Wood carried in his mouth is all right. In proof of this, Deputy Sheriff Sharkey showed two of the six keys which he retained and which adorn his key ring. The manner in which the convicts possessed themselves of the rings is still a mystery.

## Christian Burial

The movement started to raise funds wherewith to give the late Johnson Sides a Christian burial is deserving of support. The old Indian peace-maker's history will some day be written and it will be then generally known what valuable aid he rendered the whites in their peaceful conquest of this region. While Sides was well liked by his own people, he always sided with the whites when he believed that their cause was just and did everything in his power to break up the work of Indian cattle thieves who harassed the white men in the vicinity of Reno and in Long Valley. Give Johnson Sides a Christian burial.

## Coming to Reno

A number of our young people are making a move for higher education, says the Paradise correspondent of the Silver State. Miss Edith Burge and Albert Stock are students of the U. of N.; Miss Elsie Case is a musical student at the University of the Pacific. In a few days Miss Belle Bradshaw, who has completed the commercial course at the U. of N., will leave for Heald's Business College, where the young lady will take up special work; shortly Lillie Byrnes will leave for Reno to attend school there.

## A Boost for Reno

Many of the newspapers in adjoining towns are too free to throw mud at Reno, inspired by jealousy, but the Truckee Republican certainly leads the honorable minority. In its latest issue Editor Haley devotes a couple of columns to a writeup of this city that was inspired by a sense of justice toward this city. The Republican is certainly a broadminded paper.

## City Fathers Said to Have Entered Into an Agreement in Executive Session

## Unless Care Is Taken Reno Is Liable to Receive Blow to Its Present Progress

It was reported on the streets yesterday that the city council had granted a franchise to certain parties for a railway from Reno to East Reno. Upon inquiry by The Journal it was ascertained that no such franchise had been granted, an evident fact unless some deception had been practiced upon The Journal reporter who chronicled the proceedings of the Council. The fact was developed, however, that a scheme had been agreed upon by the Council by which the franchise was to be granted to certain parties by the Council under certain conditions which as yet have not been made public. The conditions so far as The Journal has been able to learn are not in consonance with the wishes of interests of the people of Reno, nor do they insure street railway connection between Reno and its Eastern suburb. Be it understood that these remarks are advisory and not in any sense dictatorial. It is more than insinuated that the parties to whom the franchise is conceded to have been granted, have no intention of building a railway from Reno proper to East Reno. Be that as it may, nine-tenths of the people of Reno desire railway connection with its Eastern suburb. As we understand it, the City Council has not power or jurisdiction beyond the City limits, but it certainly has the power to withhold a franchise until its conditions are complied with. It should withhold action until the Board of County Commissioners has paved the way for such action as will meet the wishes, convenience and interests of the people of the City of Reno. The fact is the people of Reno want railway connection with East Reno, Harriman or whatever name its Eastern suburb is designated and will be satisfied with nothing less. It is the duty of the council to see that this is insured to them. Before it takes any action in granting a franchise its bounded duty is to bind any party that applies for a franchise to commence the work at a certain date; to insure the completion of the work to the East Reno terminus at a certain time, that trains shall be running over the road before a certain date and that a certain number of them shall be run at designated intervals during each day, and the rate of fare should also be designated in the franchise. Anything less than this will be regarded as adverse to the interests of the people represented by the City Council, and in our opinion will and should be denounced by a negative vote at the election called to ratify or reject the ordinance.

# ANTIETAM

Special to The Journal]

HAGERSTOWN, Md., Sept. 17.—The handsome monument erected to the memory of the New Jersey troops who fought and fell on the battlefield of Antietam was dedicated today with impressive ceremonies in the presence of President Roosevelt, Governor Murphy, Senators Kean and Dryden and other prominent men of New Jersey and a number of citizens of Hagerstown and vicinity. President Roosevelt delivered the principal address.

The monument stands on a site purchased several years ago by the New Jersey authorities. It consists of a plain shaft of Vermont granite, forty feet in height, surmounted by the bronze figure of Captain Hugh C. Irish of Company K, 13th New Jersey, and it is placed on the spot where Captain Irish fell, mortally wounded, in the historic engagement fought forty-one years ago today. The base of the monument bears bronze tablets on which are engraved the numbers of the regiments from New Jersey which took part in the fight. There is also a large tablet bearing a diagram of the battlefield, showing the positions held by the New Jersey troops on the day of the fight.

Two New Jersey commands played important parts in the battle. One was the Thirteenth New Jersey Volunteers, in the ranks of which Governor Murphy then a strapping of less than twenty, fought and marched. The other was Hexamer's Battery of Hoboken. Both commands left many dead and carried more wounded from the bloody field after the engagement. Four other New Jersey regiments were on the outskirts of the Antietam battlefield during the engagement, but did not participate in the fight. However, they are each duly credited by occupying one of the squares of the hexagonal pedestal.

The dedicatory exercises this afternoon were opened by James O. Smith of Newark, who in a brief address on behalf of the committee having in charge the building of the monument formally turned it over to the representatives of the state, headed by Governor Murphy. The oration of President Roosevelt was followed by brief historical addresses from several of the prominent survivors of the battle. At the close of the exercises the deed to the tract of land on which the monument stands was formally turned over to representatives of the United States government.

## Trial of Broker Lamar

Special to The Journal]

NEW YORK, Sept. 17.—The case of David Lamar, the Wall street broker whose name has figured prominently in the papers of late, was called for trial today at Federal, N. J. Lamar was indicted recently by the Monmouth county grand jury with assault with intent to kill. He is charged by Jas. McMahon, his former coachman, of hiring "Monk" Eastman and James Brown, two leaders of the notorious Cherry Hill gang of thugs of this city, to assault him. The trouble between Lamar and McMahon grew out of the refusal of the latter, while driving Mrs. Lamar, to dismount from the coach box and recover Mrs. Lamar's lap dog which had jumped from the carriage.

# CONVENT

Special to The Journal]

HOUSTON, Texas, Sept. 17.—Members of the Texas Real Estate and Industrial association assembled in sixth annual session in this city today and were called to order at ten o'clock this morning by President Culmore. The roll call by Secretary A. N. Evans, showed an attendance of members from Fort Worth, Sherman, Hillsboro, Galveston, Dallas, Orange, Amarillo, McKinney, Austin, San Antonio and other leading cities and towns of the state.

Routine business occupied the forenoon. This afternoon, after the delivery of the annual address of the President, the convention listened to interesting papers dealing with the undeveloped resources of Texas, good roads, the sugar industry, Texas minerals, immigration, the rice industry, and the relations of the railroads to the development of the state. The proceedings of the convention will be continued and concluded tomorrow.

## Maryland Republicans

Special to The Journal]

BALTIMORE, Md., Sept. 17.—The Republican state convention tonight will be of a routine character as the only work to be done is the ratification of the results of the recent primary. The nominee for governor is to be Stevenson Williams of Harford county, a prominent lawyer with a reputation as a fighter for honest elections. Senator McComas and the regular republicans will have entire control of the convention. The old wheel-horses of the party will now direct their best efforts towards bringing about harmony between the regulars and the union republicans, if such a result is obtainable, with a view to getting a republican majority in the next legislature.

## Celebrate Sauer-Kraut Day

Special to The Journal]

ELDORA, Ia., Sept. 17.—The German residents of Ackley, this county, today held a unique celebration of Sauer-Kraut Day, in honor of the dish of which all Germans, many Englishmen, numbers of Frenchmen, some Italians and a few Chinamen are fond. The day's program consisted of athletic sports and contests, winding up with a great German feast in which the dish from which the celebration takes its name played a most prominent part. The town of Ackley is made up almost entirely of German residents and the celebration of the day has become an established custom among the community.

## Gibraltar Brigade Reunion

# ALASKA

Special to The Journal]

SEATTLE, Wash., Sept. 17.—The latest advices brought by returning voyagers from Alaska tend to confirm the reports of rich coal and oil finds in the far northwest territory. It is even said that resources of these products in Alaska will rival those of the Pennsylvania field. Companies are now at work drilling for oil and rich finds are reported. Tests of the Alaskan oil, it is said, show it to contain more paraffin and illuminant than the best grade of Pennsylvania oil.

A scramble to secure the coal and oil lands is now on. An anthracite coal belt, already known to be 30 miles long by 20 miles wide, has been discovered lying adjacent to the oil fields. Tests by experts show the coal to be of higher grade than British Columbia coal, which the United States navy is using on the Pacific.

## WHO KNOWS

When His Kidney Trouble Has Fastened and Reached the Chronic Stage? If It Has It is Incurable by Anything Known Except the Fulton Compounds. We Are The Sole Agents.

As an evidence of the unusual character of the Fulton Compounds that company does not publish or invite testimonials except those reporting recoveries in kidney diseases that have reached the chronic stage, alleged to be incurable. Here is another recovery in a case incurable till the advent of the Fulton Compounds, reported by John & Johnson, the agents of the Fulton Compounds in Los Gatos:

W. H. Fridley, a resident of Los Gatos, having chronic kidney disease (Bright's Disease) had, like everybody else, found all treatment futile. He commenced on Fulton's Renal Compound in February, 1903, and on December 10 of the same year reported the total disappearance of the disease. He writes that he has gained fifteen pounds in weight and is again able to do a good hard day's work. John & Johnson, the Los Gatos druggists, confirm this recovery and know of several other recoveries in similar cases of chronic kidney disease in Los Gatos, all of which were incurable by anything else known to druggists. S. A. Patner, the leading druggist of Santa Cruz, H. H. Maynard, the Peabody druggist, the Ferry Drug Company of No. 8 Market street, San Francisco, W. R. Pond, the Berkeley druggist, Dr. Marley, the Cleveland druggist, Willis & Martin, the Sacramento druggists, and scores of other California druggists all report specific recoveries in chronic kidney diseases that were positively incurable by anything known except the Fulton Compounds.

Dropsy, rheumatism from uric acid, gout and bladder troubles are proofs that the kidneys are not performing their function. The chronic stage of kidney trouble is Bright's Disease. If you feel languid or miserable, if your kidney trouble hangs on and for a long time. Percentage of recoveries nearly 90 per cent among purely chronic cases. Fulton's Renal Compound for Bright's and Kidney Diseases. \$1.00 for Diabetes. \$1.50 for John & Johnson Co., 405 Washington street, San Francisco, sole compounders. Free analyses for patients. We are the sole agents for the Fulton Compounds in this city. J. B. McCULLOUGH, Druggist.

# AN EXCELLENT ADDRESS

He Speaks Before the National Irrigation Congress at Ogden on "State Co-operation With National Irrigation"

The following address was delivered by Senator Newlands before the national irrigation congress at Ogden. His subject was "State Co-operation With National Irrigation."

Mr. Newlands remarked that one of the difficulties in framing the "national irrigation act" was the unwillingness of certain of the arid states, which had already placed their systems of irrigation under the direction of state boards of control and state engineers, to yield to any legislation which gave the federal authorities any right to interfere with stream control. Then also the owners of existing water rights, many of them claiming far in excess of any beneficial use, gave their aid to the opposition, and so at one time it seemed possible that national irrigation might fail, simply because of the dissensions of the states most interested in it. Fortunately, however, these difficulties were reconciled and the act passed. Since then numerous projects have been investigated and five have been authorized, but doubtless those projects will be first taken up which can move along the lines of least resistance. The friendliness of the local laws and local administration becomes a matter of the greatest importance. In moving along a given river, with a view to increasing its regular flow by storage, the interior department must have in view the reimbursement to the reclamation fund of the amount expended in ten annual installments from the sales of public lands with water rights attached, or sale of water rights to private owners. To expect the interior department to risk larger expenditures on rivers, many of them passing through several states, without some degree of control over the stream itself and of the distribution of its waters, was to expect too much of prudent management. In Nevada, therefore, it was concluded to secure the ampest co-operation between the state and federal authorities, and to trust Uncle Sam unreservedly. Every river in the state required government work, and it was deemed best that while the work of construction was going on and whilst Uncle Sam was collecting back from settlers the expenditures made, a divided contract of the stream would be injudicious. Bearing in mind that the national irrigation act provided that ultimately the new settlements created should be turned over to home rule and that meanwhile the national government should not be impeded in its great work, the legislature of Nevada passed a law providing for the appointment by the governor of a state engineer, to be recommended by the secretary of the interior, providing that the state engineer should prepare a list of appropriations, according to priority and that in this work he should utilize the work of the government hydrographers; that an irrigation board consisting of the governor, attorney-general, surveyor-general and state engineer should be constituted, which should appoint water commissioners in the various districts to be created by the board, such commissioners to be recommended by the secretary of the interior or the geological survey. Thus state administration moves along in the same groove as national administration, through the same officials, the statute declaring in its preamble that "it is deemed advisable by the State of Nevada that during the construction of irrigation works by the national government and during the operation, management and maintenance thereof by the national government, unity of control of the river on which such works are constructed, is essential and that it is deemed advisable that such unity of control be exercised by the secretary of the interior until the management, operation and maintenance of such works shall pass to the owners of the lands irrigated thereby as provided in the national irrigation act," and also declaring that it is the desire of the State of Nevada to co-operate in every way with the secretary of the interior, and that every inducement should be held out to the secretary of the interior by co-operation and helpful state legislation to enter upon the work of construction and operation in Nevada.

The key note of this act is "Trust in Uncle Sam." The statute is now in operation. A state engineer has been appointed, who is also a government hydrographer, and the assistants are also government hydrographers, who have been detailed to this work. The result will be a harmonious action and

it to go on with the work of administration, and even of construction if any is necessary.

Mr. Newlands urged that similar legislation on the part of other states, now perhaps in an attitude of jealousy and criticism of the national authorities, would bring about the spirit of co-operation so necessary to successfully inaugurate great projects within their boundaries.

## GRAND MILLINERY OPENING

Red Letter Day in Millinery in the City of Reno

Mrs. Dennis Sullivan has just returned from San Francisco, where she purchased all the latest novelties in trimmed and untrimmed hats, ready-to-wear, plumes and every accessory known to the millinery trade.

This immense stock will be shown to the ladies of Reno and vicinity on Saturday, the 12th, and Monday, the 14th, (our opening days), at prices never before equaled for their cheapness.

MRS. DENNIS SULLIVAN,  
S12w 203 Virginia st.

### A Lecture Course

Realizing that much pleasure and profit comes to an intelligent community by hearing the brightest men obtainable in their specialties, the Baptist pastor, Rev. W. C. Driver, has undertaken the responsibility of providing the people of Reno with a good course of lectures for the coming winter. The course will probably consist of five lectures and will be given for a dollar. It is proposed to engage the best lecturing talent of Nevada and California and give the people of our city and the Truckee meadows a real treat in the matter of pure entertainment and intellectual food. We hope soon to be able to announce the names of the lecturers and say just when the first lecture will be given.

### Public Nuisances

Every day there congregates at the West street entrance to the high school a crowd of young fellows who are to be found there morning, noon and evening and at recess hours. They make themselves obnoxious by attempting to flirt with the high school girls and by whistling and cat calling when the students are formed in line to march into the building. The Journal is informed that unless this congregation disbands there will be wholesale arrests in a day or two on the charge of their being public nuisances.

### Officers Chosen

The Comet Publishing company of this city, which issues the high school paper, has chosen the following officers to manage the business of the corporation for the ensuing term: Inez Holland, editor-in-chief; Madge McMillan, assistant editor; Ethel Bacon, exchange editor; Kleth Brandon, athletic editor; Lora Stoddard, Josh editor; George Smith, business manager. Board of directors—Jay Skinner, president; Kirby Unsworth, treasurer; May Julien, secretary. May Little, Scott Unsworth.

### Returned From the Mines

Dr. J. A. Murray, Dr. Carl Wilcox and Mining Engineers Maloney and Rogers, of San Francisco, arrived last evening from their mines, where they have been for the last five months.

The doctor turned over to the Chamber of Commerce some very valuable ore, of which is some cobalt assaying \$500 per ton from a claim in Humboldt county. They all returned healthy and rosy from their five months of mining.

### The Latest Modes

Mrs. H. Morrison has opened her line of up-to-date millinery at her parlors, 213 Virginia street. The ladies of Reno are requested to call and inspect the fall styles. The line is a complete one and will meet every requirement.

### Officers Selected

Following are the officers chosen by the Excelsior debating society of the Reno high school: President, Homer Bender; vice-president, Edna Folsom; secretary, Clara Bell Ward; treasurer, Lawrence Frey.

### Dancing Academy

Miss Florence Hastings will open her class Saturday afternoon, September 26th, at 2:30 o'clock in Kindergarten hall, and desires to have all pupils begin on above date, as she will only be in Reno three months, closing on December 19th for the cold weather, but will return in the spring for three months.

# MATTER OF BOYCOTT

H. H. B. Concludes That Threatened Boycott Refers to Himself and Associates, and States His Side of the Case

Editor Journal: I note your article in this morning's Journal under the heading "Boycott Breathed of." Presuming that the "certain manufacturing plant" referred to, means the flour mill now being erected by Mr. Berrum, myself and other, I have to say: We neither court the favor of the union labor organization nor challenge their hostility. As I employed most of the carpenters I wish to say that I don't know whether they are members of the union or not.

On several occasions I was asked whether we wanted union or non-union mechanics. My answer was that I wanted carpenters. That their unionism or non-unionism had no more to do with my choice than has their religion. If this is treason, then make the most of it. I do know, however, that we are paying what I understand is the union scale of wages and do not ask the workmen to toil more than eight hours for a day and so long as they are satisfied and we need them I am of the opinion they will stay.

H. H. BECK.

Reno, Sept. 17, 1903.

### Visit of Episcopalians

The invitation of the Chamber of Commerce to the members of the Episcopal convocation to attend the Reno Chamber of Commerce was accepted with a vote of thanks and most of the members visited the chamber yesterday, including Bishop Moreland and wife. All expressed surprise and pleasure.

is Beautiful Terra Vale.

Sunday morning the Nevada-California-Oregon railway company will run an excursion train to beautiful Mohawk valley. The train will be run through by daylight and four hours will be spent beneath the murmuring pines.

The railroad company will provide comfortable closed coaches, the best that the road affords and the rate is only a dollar for the round trip.

This is the best excursion of the season and will certainly be well patronized. The N-C-O company has certainly been liberal with the Reno people this season and they are being well patronized in return. Buy your tickets early and take your family with you.

### Happily Married

Miss Mona Kelg, a Nevada young lady, surprised many of her friends last week. She was quietly married in San Jose September 8th to Earl J. Toogood, of San Francisco. Mrs. Toogood is a Virginia City girl but attended the university here, winning many friends who deem her Reno's own. Mr. Toogood has a splendid position in the San Francisco Gas Co. The Journal extends congratulations.

## Our Prescription Department

IN prescription work we consistently adhere to the principle that only the purest and best drugs and medicines should be used. We never depart from that standard. But on the other points about the prescription department we often change. We are constantly seeking to improve the arrangement of shelves, closets and drawers so as to dispense medicines more quickly. We have to do this to accommodate our growing business.

There's no telling when you'll need prompt, reliable prescription service. Bear us in mind.

## School Days are Here

And the question arises: How about a new suit for school? We can dress a boy stylishly and at the same time do it economically. We have just received a line of Ederhammer clothing for boys—there are no better made. They are all wool, elegantly tailored and color fast.

We are not selling the "cheapest" goods in town, but we are selling the "best" goods for the money. We invite parents to look at our new line of Boys Clothing.

THE "PRACTICAL POLITICIAN'S WAY"

ARENT the scandal in the San Francisco postoffice, a special from Washington to the Bulletin of that city says:

"When the rumors and charges of rottenness in the administration of the postoffice first were heard Postmaster-General Payne, Senators Hanna and Quay and other practical politicians in and out of the cabinet, recommended a secret investigation to avoid scandal and suggested that the guilty persons be dropped quietly so that the affair might not be turned into campaign material by the Democrats. Fourth Assistant Postmaster-General Bristow, however, is a vigorous man of the type of Jerome Folk and Roosevelt and he urged on the President a full and open investigation with plenty of publicity and an aggressive prosecution of the criminals."

The foregoing strongly sustains the view expressed by The Journal that a thorough purification of the public service can only be effected by a change of administration. Grant that Roosevelt and Bristow are honest and anxious to put an end to all criminal abuses in the departments, and still the fact remains that many of their influential associates are too much afraid of the party's getting hurt to favor a very vigorous or open prosecution.

Hanna and Quay and Payne, the Postmaster-General, are told, have favored the policy, not of punishing the guilty persons, but of "quietly dropping them out," so that the affair might not be turned into campaign material for the Democrats. Such being the feeling of the practical politicians of the party, including the head of the department itself, it stands to reason that the prosecution will lack some of the elements of vigor essential for a complete expose of the frauds and the punishment of the guilty.

The same feeling in official circles which prompts Hanna, Quay and Payne to favor the policy of hushing things up will induce others of the same political ilk to conceal essential facts and thus make the corruption appear less widespread and wholesale than it actually is. Even Roosevelt and Bristow do not want the Republican party hurt, and while sounding the slogan that no guilty man should be allowed to escape, they know full well that the more guilty ones there are exposed the worse it is for their party. It is but natural for them, therefore, to desire that the extent of the corruption should be minimized, and it is perfectly clear that the Hannas, the Quays and the Paynes, with their subordinates, will help in the work of minimizing. In fact, it is more than likely that some of the guilty ones themselves are in positions which enable them to render effective service in the work of minimizing and concealing corruption.

It is strange but true that even men who are perfectly honest in personal matters, when holding public office will wink at the wrong-doings in others rather than take the chance of weakening their party; and they ease their consciences by the specious plea that however bad their party may be it is better than the opposition party anyway. It is more than doubtful if all the corruption now pervading the various departments will ever be brought to light until the work is taken in hand by those who have nothing to gain by concealing crime and "hushing things up."

AS TO THE MOROS

KING DAVID proclaimed in his wrath, "All men are liars." When he uttered that sweeping declaration he probably had in his prophetic mind's eye American Jingoism. They have told us scores of times that peace—universal peace, white-winged peace—reigns in the Philippines. General Otis told us so scores of times. Governor Taft told us so, all the commanding generals told us so and all the Republican newspapers gave us the same assurance. All of the pronouncements were fairy tales. There is no peace in the Philippines and there never will be until all of the Filipinos are dead. Even the St. Louis Globe-Democrat, which thinks every American who is not a Republican should be hanged, admits it in the following paragraph:

"The Moros of Bacold again promise to make trouble for the United States. As these persons have been subdued once or twice and have promised to recognize American sovereignty their present rebellious mood is likely to call down some punishment on them. The persons who are asking for tribute from the United States as a condition precedent to their submission to its authority are in danger of getting into trouble. The United States is not in the habit of paying tribute to anybody, barbarian or civilized."

NOT "INTERNATIONAL"

DEBS says populism is dead, that it presents a sorry contrast with his "advancing, enthusiastic, confident, cheering revolutionary hosts of international socialism." Why international socialism? If through the socialistic ideas the settlement of troublesome problems is to be worked out in this country it must be with direct reference to conditions in this country. There are no international problems to be disposed of. Industrial questions in the United States must be settled by citizens of the United States, and not by the aid of foreigners, socialistic

DON'T

FOURTH ASSISTANT POSTMASTER-GENERAL BRISTOW somewhat resembles—not in personal appearance, but in actions—the cow which gives a bucket of good milk and then proceeds to kick it over. In prosecuting the Republican thieves and grafters in the post-office department he rendered the country good service, which rendered him justly popular in the country and which caused many of his admiring fellow citizens to couple his name with the vice presidential nomination. But, Joseph, so the Washington dispatches say, is evolving out of his inner consciousness a scheme to restrict the establishment of rural free delivery routes. In the language of Mr. Puck, "Don't!" You are liable to get lynched, Joseph, if you do that and then venture into the remote districts. So "Don't!"—Champ Clark.

AGUINALDO has been a good boy for several months, so good that he hasn't been heard of out in this neck of the woods. He hadn't even been heard of in the Philippines until he published his letter endorsing the American government and urging the Filipinos to give up gambling and build railroads.

IF Carnegie is right and England and the United States are to be one we may as well serve notice right now, so as to prevent future complications, that we are to be this one.

# ATTACK THE CHINKS

One Chinaman Killed and Five Missing. Eighteen Men Are Now in Custody on Charges of Murder

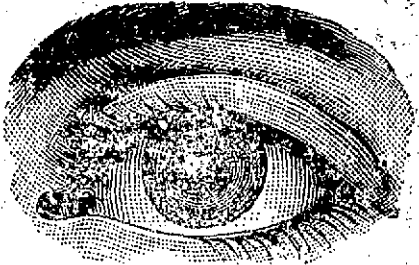

Special to The Journal] TONOPAH, September 17. — This camp is all excitement over the onslaught made on Chinese residents early yesterday morning. A mob of armed men invaded the Chinese quarter and captured all the Celestials they could. The victims were marched to the edge of town, robbed of several hundred dollars and warned not to return to the place. It is understood that the United States government is investigating the outrage and an appeal has been made to the governor of the state for militia if needed. One of the Chinese died from the injuries received and five others are missing.

(Another version was received late last night.) TONOPAH, September 17.—Eighteen men are in jail charged with murder. The mob was composed of labor union men. The miners' union as an organization refused to take any hand in the matter of running the Chinese out. The Chinese consul telegraphs to expend all money necessary to prosecute and special counsel has been engaged. The inquest of the Chinaman killed will take place tomorrow. The citizens to a man denounce the outrage and money is being raised by citizens to prosecute the perpetrators of the crime. The jail is guarded tonight by ten deputies to see that the prisoners do not escape. There is no danger of mob violence. More arrests will take place tomorrow.

That War Cloud Special to The Journal] LONDON, Sept. 17.—With the consent of the other powers Austria and Russia have decided to intervene in Macedonia. The plan is to place guards in the disturbed section until order is restored. It remains to be seen how Turkey will look on this plan. Bulgaria has been warned by Austria to keep peace, but she goes on preparing for war.

In British Political Circles Special to The Journal] LONDON, Sept. 17.—The resignation of Chamberlain, Ritchie and Hamilton, which was announced tonight, is expected to precipitate an election in which the tariff will be the main issue. Chamberlain in his letters of resignation indicates a plan to make a fight alone from now on.

Hugh Edminston, a young society man of Lincoln, Nebraska, was found dead in his office early yesterday morning. Sir Thomas Lipton, who is ill of catarrhal appendicitis in his apartments in the Auditorium Annex in Chicago, passed a quiet night and is doing well, according to a statement made by Dr. Thomas. Fierce fights between Jews and Christians in which four Christians and two Jews were killed and many persons were seriously injured is reported from Gornlea, in the government of Moghileer. The condition of United States Senator Nathan B. Scott of West Virginia, who is sick with illeo-colitis at the Brown Palace Hotel in Denver, was reported to be slightly improved this morning, although it is still regarded as very grave. The Republicans of the five counties comprising the commonwealth of Hawaii, have met in convention to nominate candidates for the various county offices which are to be filled by ballot in November, the election being the first to be held under the new county government act. Practical illustrations of what irrigation will do for western land and the best method of supplying the needed moisture to the arid stretches of the west, as well as the theoretical science of irrigation, were set before the delegates to the national irrigation congress at yesterday's sessions. The British steamship Roxby, Captain Shields, which arrived yesterday at Norfolk from Port English, had on board Domingo Ballo Reyarbaray, the only survivor of the crew of twenty-two men on the British steamship Mexico, which foundered with all on board off the Florida coast Tuesday night.

Owes His Life to a Neighbor's Kindness. Mr. D. P. Daugherty, well known throughout Mercer and Summit counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea; was attended by two physicians who gave him little, if any, relief, when a neighbor learning of his serious condition, brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. For sale by S. J. Hodgkinson.

# THE PALACE WILL BE

This Popular Resort Is Being  
Entirely Remodeled. Proprietor  
Fitzgerald Has Big Faith  
in Reno's Future Prosperity

While the work on new buildings in Reno has been day by day reported, there are many improvements not mentioned which give employment to the numerous laborers of the city. Prominent among them is the excavation for the cellar under the Palace Hotel. Proprietor J. A. Fitzgerald has some eighteen men employed on this work and when it is completed the underground room furnished will be 40x100 feet, a portion of which will be used as a wine cellar and the other part leased out. In doing this work Mr. Fitzgerald is having a good substantial stone wall foundation made for the building and will further have a cement walk placed the whole length of the east side of the building. There are many other improvements in the appointments of the Palace which are under consideration which the proprietor does not at present wish to make public. As the question now stands there is a possibility of the erection of an elegant brick structure on the site of the Palace hotel in the near future.

## THE ELLEFORDS AT THE OPERA-HOUSE

"A Woman's Sacrifice," which is the bill to be presented by the Ellefords this evening is one of New York's comedy-drama successes and is considered to be one of the strongest of all of Ellefords' repertoire.

The story of the piece deals with the perils of a friend who in order to gain the estate and affections of Baron Kateek's wife poisons his mind against his wife. The Baron leaves home and in order to escape the persecutions of the false friends attempts suicide. The friend is about to marry the Baron's daughter to the Baron's supposed enemy when the Baron returns and all is set right.

The comedy throughout is excellent and the situations all good.

It also affords the ladies of the company a chance to display some very pretty gowns.

Tickets for the matinee tomorrow afternoon on sale this morning. The matinee consists of "Jack and the Beanstalk" introducing Happy Hooligan and the Katzenjammer kids. Prices to matinee 15 and 25 cents.

### His Life Saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy

"B. L. Byer, a well-known cooper of this town, says he believes Chamberlain's Colic, Cholera and Diarrhoea Remedy saved his life last summer. He had been sick for a month with what the doctors called bilious dysentery, and could get nothing to do him any good until he tried this remedy. It gave him immediate relief," says B. T. Little, merchant, Hancock, Md., for sale by S. J. Rodgers.

In the Second Judicial District Court of the State of Nevada, in and for Washoe County

The State of Nevada sends to Georgia Borden greeting.

You are hereby required to appear in an action commenced against you as defendant by Clarence Borden as plaintiff in the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of day of service), if served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The action is brought to recover a judgment and decree in the above entitled Court to dissolve the bonds of matrimony now existing between plaintiff and defendant upon the ground of desertion to wit: That on or about the month of — 1901, the said defendant disregarding the solemnity of her marriage vow and without cause deserted and abandoned the plaintiff and ever since has and still continues so to willfully and without cause desert and abandon said plaintiff and to live separate and apart from him without any sufficient cause or any reason and against his will and without his consent.

All of which will more fully appear from the Complaint, which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand at Reno, this 22d day of August, A. D., 1903.

O. H. MACK,  
Attorney for Plaintiff

### SUMMONS

In the Second Judicial District Court of the State of Nevada, in and for the County of Washoe

The State of Nevada sends to Harry Snorman, defendant, greeting.

You are hereby required to appear in an action commenced against you as defendant by Hannah Marian Sherman as plaintiff in the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The action is brought to recover a decree of this court dissolving the bonds of matrimony now existing between plaintiff and defendant and allowing plaintiff to resume her maiden name of Hannah Marian Cooper, on the ground that you, defendant, have treated plaintiff in a cruel and inhuman manner on the 20th day of January, 1903, at Reno, Nevada, in that you demanded that she make of herself a prostitute for the purpose of supporting herself and you. That she refused to do as requested by you and by reason of such demand her health has been injured from worrying over such treatment and she has suffered great mental agony thereby. By reason of such cruel treatment she has been forced to leave you, defendant, and live separate and apart from you.

All of which will more fully appear from the Complaint, which is on file in the office of the Clerk of said Court, at Reno, in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand and affixed the Seal of said Court, at Reno, this 22d day of April A. D. 1903.

W. A. FOGG,  
Clerk of the Second Judicial District Court of the State of Nevada, in and for Washoe County.

PROGRESS OF AN IMPORTANT  
INDUSTRY IN NEVADA.

New Discoveries, Development Work,  
Shipment and Reduction of Ore Re-  
ported From Every County.

A vein of ore eight feet wide, car-  
rying \$50 per ton in gold, has been de-  
veloped at Round Mountain, Lander  
county.

Operations in the workings of the  
Tonopah & Salt Lake mining company  
at Tonopah have been discontinued,  
pending the construction of a reduc-  
tion plant.

R. K. Colcord and James Yerington  
of Carson, who have lately returned  
from Hawthorne, where they have in-  
specting the work of laying the pipe  
for the new mill at Pamlico report good  
progress in the work. The pipe line  
is now within three miles of the mill  
site, and the new mill is now being  
hauled toward the ground. The bring-  
ing in of the water is one of the largest  
undertakings that has been started in  
Esmeralda county since the closing  
down of the Candelaria mines and it  
means more to the section about Haw-  
thorne than any move that has been  
made in a mining way for years, or,  
in fact since the town was organized.

Rotten Service

The Virginia and Truckee express is  
worse than an ice wagon for the lat-  
ter is generally on time even if it don't  
hurry. The Yerington yellow train is  
advertised to leave Reno every morning  
at 8 35, but it is generally noon or later  
before it pulls out. At 1 o'clock an-  
other train is billed to leave Reno and  
this could be used to accommodate the  
southbound passengers who arrive on  
belated Southern Pacific trains. The  
company doesn't seem to consider the  
Reno people who might have business  
in Carson or Virginia nor the passen-  
gers for the south who arrive on the  
night trains. Travel by private con-  
veyance via the grade is constantly on  
the increase. Meanwhile Yerington  
rubs his palms thinking how he is in-  
conveniencing Reno, people forgetting  
that he is the hired man of the V. & T.  
company. Yerington is like that. Gest  
who said to hell with Reno but The  
Journal raised something of a roar  
about his methods and the company  
soon discovered that they could find  
somebody else willing to take his job  
and run the road in the interest of the  
public.

Company Formed

The Newlands company has been in-  
corporated with a capital stock of  
\$250,000. It proposes to do a general  
real estate business. The incorpora-  
tors are Francis G. Newlands, John C.  
Newlands, O. J. Smith, W. A. Mas-  
sey and N. W. Roff, of Reno, Nevada.  
James Newlands, J. P. Martin and J.  
M. Allen of San Francisco.

Indiana Fire Agents

Special to The Journal  
INDIANAPOLIS, Ind., Sept. 17.—  
The Indiana association of fire in-  
surance agents met in annual con-  
vention in this city today with a good at-  
tendance of leading fire insurance men  
of the state. Papers and discussions  
of various topics of interest and im-  
portance to those engaged in the busi-  
ness occupied the day.

First Cousins Cannot Wed

Special to The Journal  
DETROIT, Mich., Sept. 17.—A num-  
ber of measures passed by the last ses-  
sion of the Michigan state legislature  
became laws today. One of the new  
law prohibits the marriage of first  
cousins.

A Boy's Wild Ride for Life.  
With family around expecting him to  
die, and a son riding for life, 18 miles  
to get Dr. King's New Discovery for  
Consumption, Coughs and Colds, W. H.  
Brown, of Leesville, Ind., endured  
death's agonies from asthma, but this  
wonderful medicine gave instant relief  
and soon cured him. He writes: "I  
now sleep soundly every night." Like  
marvelous cures of consumption, Pneu-  
monia, Bronchitis, Coughs, Colds and  
Grip prove its matchless merit for all  
Throat and Lung troubles. Guaranteed

A Remarkable Rec rd  
Chamberlain's Cough Remedy has a  
remarkable record. It has been in use  
for over thirty years, during which  
time many millions of bottles have been  
sold and used. It has long been the  
standard and main reliance in the  
treatment of croup in thousands of  
homes, yet during this time no case has  
ever been reported to the manufactur-  
ers in which it failed to effect a cure.  
When given as soon as the child be-  
comes hoarse or even as soon as the  
croupy cough appears it will prevent  
the attack. It is pleasant to take,  
many children like it. It contains no  
opium or other harmful substance and  
may be given as confidently to a baby  
as to an adult. For sale by S. J. Hodg-  
kinson.

## A GREAT FUTURE

The Silver State on the Upgrade Once More

Nevada is truly on the upgrade and a few years hence people will behold one of the most prosperous states in the Union says the Enterprise. The population will increase rapidly, as the system of irrigating canals now under way will attract settlers from all parts of the country, especially from those states where the question of water is uncertain. The work the government has undertaken on the Truckee river has opened the eyes of the people to what can be accomplished by irrigating ditches and already in several localities farmers are arranging to build dams in various valleys to save the water which usually runs to waste until it is needed in the summer time. The certainty of an unfailing water supply means that thousands of acres of land now idle will be brought under cultivation. The government reports show that great activity in mining is going on, and as the farmers can find a good market for their products in the mining towns the two industries presage a growth for Nevada which will be beyond all expectations

The Associated Press learns that Cajonal Secretary Chamberlain has decided to resign from the cabinet, on the ground that Premier Balfour's attitude on the fiscal questions is not sufficiently advanced to enable Mr. Chamberlain to remain a member of the government without the sacrifice of his own views on the question.

Chief Engineer Wolcott of the United States Geological Survey has received a letter from the Peruvian government asking that he appoint two engineers to take charge of the reclamation work in Peru.

Like all wideawake concerns we keep our buyers busy looking out for the new things in our line. We have a little story of their success to tell you today that concerns particularly our Coat Department. We have just received by Express a swell lot of Coats—the finest ever shown in Reno.

Among them you will find double breasted medium fitting Coats in Melton, Covert and Broadcloth, with the new notched or shawl collar. Blouse Jackets in Zibeline and Camel's Hair, in gray, black and tan. The new graceful Corset Coats in pretty shades of tan, and a host of other styles to choose from.

We want you to consider this your invitation to come and inspect the stock. We feel certain that you will be pleased with what you see and will be satisfied that the prices we are making are in accordance with the goods we offer.

The other departments are equally interesting, being filled with new fall goods upon which right prices have been made.
